- IP44, perfectly suited for your bathroom

### Sustainable light solutions

- High quality LED light
- Energy saving
- Warm white light

## Kenmerken

### True skin color

This Philips bathroom light makes colors reflect in a natural and accurate way. Just the way the sun would do.

### High quality LED light

The LED technology, integrated into this Philips lamp, is a uniquely developed solution by Philips. While instantly turned on, it enables an optimal light output and brings out vivid colors in your home.

### Warm white light

Light can have different color temperatures, indicated in units called Kelvin (K). Lamps with a low

Kelvin value produce a warm, more cosy light, while those with a higher Kelvin value produce a cool, more energising light. This Philips lamp offers warm white light for a cosy atmosphere.

### Energy saving

This Philips energy saving lamp conserves energy compared to traditional light sources, helping you to save money on your electricity bills and do your bit for the environment.

### IP44 - bathroom safe

This Philips bathroom light is especially designed for humid environments. It was tested rigorously to ensure its water resistance. The IP level is described by two figures: the first one refers to the protection level against dust, the second against water. This bathroom light is designed with IP44: it is protected against splashing water, this product is most common and ideal for bathroom use.
