Kenmerken

Light for your daily routines

Light influences our mood and behavior. Philips Hue can help you to customize your daily routines into moments you can enjoy. Skip your morning coffee and get ready for the day with cool, bright white daylight that helps to energize your body and mind. Stay focussed with finely tuned bright white light. Or put your feet up and relax with a soft glow of white light for the perfect end of the day.

Installation free dimming

Experience guaranteed smooth dimming with Philips Hue. Not too bright. Not too dark. Just right. No need for wires, an electrician or installation

Full control with Hue bridge

Connect your Philips Hue lights with the bridge to unlock the endless possibilities of the system.

Smart control, home and away

With the Philips Hue iOS and Android apps you can control your lights remotely wherever you are. Check if you have forgotten to switch your lights off before you left your home, and switch them on if you are working late. Connection with the Philips Hue bridge required for this functionality.

Control it your way

Connect your Philips Hue lights with the bridge and start discovering the endless possibilities. Control your lights from your

smartphone or tablet via the Philips Hue app, or add switches to your system to activate your lights. Set timers, notifications, alarms, and more for the full Philips Hue experience. Philips Hue even works with Amazon Alexa, Apple HomeKit and Google Home to allow you to control your lights with your voice.

Timers for your convenience

Philips Hue can make it seem like you're home when you're not, using the schedule function in the Philips Hue app. Set the lights to come on at a pre-set time, so the lights are on when you arrive home. You can even set rooms to light up at different times. And of course, you can let the lights turn off gradually in the night, so you never have to worry whether you've left any lights on. Connection with the Philips Hue bridge required for this functionality.

Wake up and go to sleep

Philips Hue will help get you out of bed the way you like it, helping you start your day feeling refreshed. The light brightness increases gradually mimicking the effect of sunrise and helps you wake up naturally, instead of being woken up by the loud sound of an alarm clock. Start your day, the right way. In the evening, the relaxing warm white light helps you to unwind, relax and prepare your body for a good night's sleep.
